ABOUT ME

I'm Mohamed Hassaan Ahmed, an Architectural Engineer and a graduate of the Faculty of Fine Arts, Assiut University. I currently work at DOSOR STUDIO as an Architectural Designer and Technical Office Engineer, contributing to architectural design development, 3D modeling and visualization, AI-assisted rendering, and technical drawings. My role involves working on different project types and turning design ideas into clear visual presentations and technical documentation.

PROFESSIONAL EXPERIENCE

Architectural Designer & Technical Office Engineer January 2026 – Present

DOSOR STUDIO — Architectural Design Office, Cairo, Egypt

- Participate in architectural design development for residential, mixed-use, religious, sports, and commercial projects.
- Develop 3D architectural models using SketchUp and produce architectural visualizations using D5 Render.
- Use AI-assisted tools to enhance architectural renders and visual presentations.
- Prepare architectural and interior working drawings using AutoCAD.
- Prepare architectural plans, elevations, and detailed drawings as part of technical documentation packages.
- Contribute to landscape design and development as part of architectural projects.
- Coordinate with the design team to maintain consistency between design concepts and technical documentation.
